

LAB:

INTRODUCTORY WHITE POWDER

WHITE POWDER LAB PAGE 1

1. Fill Dixie cup approximately $\frac{1}{3}$ to $\frac{1}{2}$ full with white powder.

2. Add $\frac{1}{3}$ as much water as powder.

3. Stir with craft stick.

4. Consistency should be like thick toothpaste.

WHITE POWDER LAB PAGE 2

Roll it into a ball and pull it apart.

Stir quickly.

Push stick down slowly and then quickly.

Tap it with your finger.

Squeeze it.

WHITE POWDER LAB PAGE 3

Stir slowly.

Hit it with a hammer.
